### Hansen Turbo-Sweep Parts & Materials

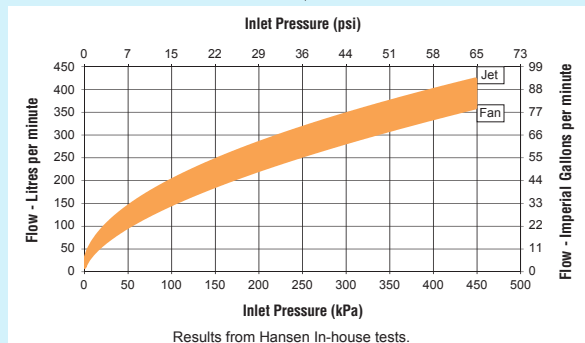

**Cam Plate** - Glass Fibre Reinforced Nylon  
**Blade** - Glass Fibre Reinforced Polyketone  
**Front Plate** - Acetal  
**Clip** - Glass Fibre Filled Acetal  
**Key** - Glass Fibre Filled Acetal  
**Blade Housing** - Glass Fibre Reinforced Nylon  
**Cone** - Glass Fibre Reinforced Nylon  
**Rear Body** - Glass Fibre Reinforced Polyketone

**Turbo Sweep Body** - Glass Fibre Reinforced Nylon  
**Tip** - Thermoplastic Polyester Elastomer  
**Turbo Sweep Bumper** - Thermoplastic Vulcanizate  
**O-rings** - EPDM  
**Retaining Screws** - Stainless Steel

### Hansen Turbo-Sweep Working Pressure

Hansen Turbo-Sweep Maximum Working Pressure; 8 Bar 800 kPa. 116 psi @ 20°C

### Hansen Turbo-Sweep Flow Chart

## Frequently Asked Questions

**Q** How many sizes does the Turbo-Sweep come in?

**A** The Turbo-Sweep is available in a range of versatile connection styles for 25mm to 50mm washdown hose and male or female threaded end connections for custom applications

**Q** What is the pressure rating?

**A** The Hansen Turbo-Sweep is pressure rated to 8 Bar 800 kPa. 116 psi @ 20°C

**Q** What temperature can the water be when using the Hansen Turbo-Sweep?

**A** Up to 60° Celsius.

**Q** Are there replacement parts for the Hansen Turbo-Sweep?

**A** Yes, there is a range of replacement parts available for the Hansen Turbo-Sweep.

**Q** Is the Turbo-Sweep adjustable?

**A** Yes, it has a wide range of actions from Jet to Sweep and is quickly adjustable between open to fully closed

**Q** How much water does the Turbo-Sweep use?

**A** This is determined, in part, by your existing washdown system. The best way to move dirt etc is a combination of flow and velocity, which Hansen have taken into account when designing the Turbo-Sweep.

**Q** What applications can I use a Turbo-Sweep for?

**A** Ideal for yard wash, or any other applications that require a combination of flow, pressure and velocity such as washing vehicles.

**Q** What hose clamp can I use on the Turbo-Sweep?

**A** Hansen have developed a new clamping system which eliminates the traditional stainless steel clamp method. The new Easy Clamp will not cut your hands or wrist, although any hose clamp can be used.

**Q** I'm sick of having to un-twist my hose every day after washing down - how can you solve this?

**A** Hansen have developed a thoroughly modern connection, the Ultimate Swivel that allows you to complete your washdown without the washdown hose twisting, as you make your way around the yards.

## Best Installed Value

With speed and overall performance in mind the Hansen *Turbo* Nozzle range delivers a robust set of user friendly features designed to make washdown less of a chore and more of a working pleasure.

The Hansen *Turbo Sweep* takes nozzles where no other washdown nozzle has ever been. The ultra modern Dual Action Nozzle combines a highly effective Sweep action that acts as a powerful broom to shift effluent across the yard floor in volume, and with a simple twist action converts to a concentrated jet stream to remove those stubborn dried on areas that other nozzles have difficulty shifting. Not restricted to the yard floor, the Hansen *Turbo Sweep* also serves as an excellent nozzle for the likes of industrial, marine and vehicle washing, delivering the ultimate in 2 in 1 cleaning power.

With over 60 years' experience in manufacturing, Hansen Products knows the importance of fluid delivery, flow and pressure within a pipe system. This has seen Hansen Products build a reputation for providing high performance, easy to use, innovative, simple products that provide our customers with "Best Installed Value".

All Hansen products carry our Limited Lifetime Warranty\*
